

Setu® Chairs

Every part of the Setu Chair was painstakingly shaped and reshaped to ensure that each molecule falls into the right place to deliver the desired functionality. The result is a dematerialised design that supports people of all sizes. Available in a range of material options and in stool and lounge versions, Setu can be a functional focal point or blend into its environment.

Designer
Studio 7.5

Benefits

- Material innovation results in an unique combination of flex and strength.
- Only adjustment is for height, so every person who uses the chair can make one quick change and then get right to work.
- A range of upholstery and material options broaden Setu's appeal.

Warranty
12-year, 3-shift

Key Features

1. **Kinematic Spine**
The Kinematic Spine™ uses two types of polypropylene instead of a tilt mechanism to support your weight and control resistance as you recline.
2. **Lyris 2 (Optional)**
More structural element than textile, the finely tuned Lyris 2™ elastomeric material creates Setu’s one-piece seat and back, working with Setu’s Kinematic Spine to distribute your weight evenly and conform to your contours.
3. **Silver Base**
The corrosion-resistant H-Alloy base is both lightweight and durable.
4. **Simple Adjustment**
The Setu Chair and Stool have a height adjustment, and that’s it. There’s nothing else to tinker with, nothing to tweak, nothing to think about.
